One-Time Need

**Brief Project Description:**

Additional funding needed to support lights for the football field used for school and community events.

	<i>Amount</i>	<i>FY</i>	<i>Amount</i>	<i>FY</i>	<i>Amount</i>	<i>FY</i>
State Funds	\$40,000	FY 2007				
Total	\$40,000					

**Detailed Project Description and Justification:**

Additional funding needed to purchase lights for the football field used for school and community events. A partial State grant of \$40,000 was awarded in FY07, but the school cannot purchase the lights until full funding is awarded. An FY08 funding request was fully vetoed. Due to the project delay caused by the veto, the cost of completion is \$49,000 more than FY08. This FY09 funding will be added to match the current bid of \$225,000 to move forward and complete the project.

This project is included in SB256 supplemental bill as part of the capital projects that were vetoed last year. If funded through the supplemental, then the difference of \$49,000 will be requested in the FY09 Capital Budget.

The Houston High School football field is used for both school sports programs and community activities. However, the field currently can only be used during daylight hours. This funding will show our support for the growing community of Houston.

## 2007-2008

Dear Senator Charlie Huggins,

I first want to thank you for helping fund the football field lights project. I know how important this money is and how hard it is to find projects worthy of consideration. I believe that by putting lights on the Houston High football field, we will have the same opportunity as other schools in the district to provide a variety of needs in the community. The lights will be used not only for sports but also community activities that would otherwise go by the wayside. It will also provide a sense of pride that shows both the Borough's and State's respect for the community of Houston.

As I mentioned before we are grateful for the original \$40,000. However, we are asking that you consider the total cost of the most up to date quote for this project and help us as you have throughout your tenure as a public servant. Without the continued help from the State it would be many years of fundraising and saving while seeing the cost escalate beyond our reach. We do not want the \$40,000 to be redistributed for other projects before we come up with a way to fully fund this endeavor. We are asking for additional monetary support to meet the total cost of the Houston High School football field lights project. Thank you again for all you do for us here in the Mat-Su Borough.

Sincerely

Norman Bouchard
